

Producing water is a responsibility, one that we have been enjoying since 2004. AQUANI is a brand committed to producing and marketing high quality drinking water to any home and office in Malta and Gozo.

Our water is slightly mineralized and originates from closely controlled water sources. It is in our interest to ensure that we respect all the necessary standards and regulations when producing our water. The result is a quality product that is enjoyed by many families and companies.

The attention to detail is extended to the type of service we provide to our consumers. Our team and structure gives us the opportunity to take and deliver an order within 24 hours wherever you are in Malta or Gozo.
